I’m so thankful and grateful that I had the chance to attend this amazing training. It was extremely informative, productive and enjoyable.

—Rima Tumia  
Ph.D. candidate  
Texas Southern University
Our partners at Houston-Galveston Area Council generously facilitated the training along with Bayou Preservation's very own certified trainer, Bob Lee. As part of our Bayou Citizen Science Program, participants will have the opportunity to monitor a bayou of their choice, collect vital field data and share findings with local and state agencies as a certified Texas Stream Team Core Water Quality Citizen Scientist!
